ICAI-SAPIENS

ICAI School of Engineering
Madrid (Spain)

Academic Year
2021-2022

DESCRIPTION

ICAI-SAPIENS is a program that was designed for engineering and other STEM students in 2013, and has been growing ever since. Students, especially from the US, gain international experience without delaying their graduation, given that the vast majority of these courses are what they require towards their curriculum.

We offer several categories of courses in our ICAI-SAPIENS, all of which are taught in English:

- **Fundamental Engineering/STEM:** these are meant to be similar/identical to their equivalent subjects in a standard US Sophomore/Junior year.
- **Culture, Language & Humanities:** these provide an insight into the Spanish language and culture, and include guided visits to several local landmarks.
- **Technological & Electives:** these are highly recommended for international engineering/STEM students.
- **Research Projects:** supervised by professors and researchers of the school of engineering. These projects are only available and assigned to semester-long exchanges and 8-week summer students.
- *Other, additional and business courses: offered at the ICAI School of Engineering, these are also available to ICAI-SAPIENS students, schedule permitting, offered in either English and/or Spanish. Please note that their calendar and exam periods may differ from SAPIENS depending on the term(s).*

PERIODS / TERMS

ICAI-SAPIENS is offered in the following three terms:

- **FALL 2021:** from September 6th to December 22nd
- **SPRING 2022:** from January 17th to April 29th
- **SUMMER 2022:** from May 16th to July 8th (4 to 8 weeks)

Note: these periods include SAPIENS exams. ICAI (non-SAPIENS) exams may extend to January 14th (FALL) or May 20th (SPRING)

RETAKE EXAMS: for SAPIENS courses, mid to late May. For ICAI courses, mid to late June.

LOCATION

The ICAI School of Engineering is located in downtown Madrid, within walking distance to the most significant historic landmarks in our city. Our 24/7 outsourced housing service provides numerous nearby housing options.

Madrid is conveniently situated in the center of Spain, with easy access (typically in under 3 hours by high-speed train or highway) to the most interesting tourist attractions and cities in Spain. Madrid International Airport offers direct flights to the most important cities in Europe, including all capital cities in the European Union.

TESTIMONIAL

"The Comillas Summer Program has helped me broaden my mind, enhance my education and have a great summer with unforgettable friendships. Amazing courses like Entrepreneurship and The Internet of Things along with a Research Project have allowed me to collaborate with incredibly engaged and passionate professors who have opened my eyes to new possibilities for my future. I am extremely grateful for the opportunity to take part in the ICAI experience."
